31 years of excellence
Masterful craftsmanship
Boutique quality and prestige
A leader in luxury customization

- Since 1993, artisans have shaped Sacucci culture.
- The first Sacucci showroom launched in 2008, establishing the brand.
- Sacucci values the uniqueness of wood, with each piece being one-of-a-kind.
- Artistic customization and precision craftsmanship define the brand.
- Sacucci's spirit is built on free artistic expression and expert craftsmanship.
- Creativity drives the brand's growth and evolution.

SACUCCI Projects

SACUCCI

Sacucci, a brand focused on custom wood

Specialist in providing integrated personalized custom services Good at handcraft custom services Introducing German high-precision intelligent equipment and Italian production lines to create a combination of manual and mechanized production mode

Using Italian original imported water-based coating to create eco-friendly coating process, Committed to environmentally friendly home, And interpreting the inner quality and artistic characteristic of products.

SACUCCI

Personalization, Handcraft, Humanization

Building upon the essence of tradition, Premier Mansion blends modern design with a passion for wood, integrating it into home aesthetics. The focus is on combining artistic design with functionality, offering customizations within established systems to meet individual customer needs, showcasing elegance, excellence, and uniqueness.

As industrialization advances, traditional craftsmanship has been largely replaced by machines that prioritize efficiency and speed. Yet, SACUCCI, committed to preserving Chinese traditional culture, continues to showcase the charm of traditional handcraft, capturing the spirit of the era in each wooden creation.

Mission-

Attention to details

Sacucci, a brand focused on custom wood

Specialist in providing integrated personalized custom services. Good at handcraft custom services. Introducing German high-precision intelligent equipment and Italian production lines to create a combination of manual and mechanized production mode.

Using Italian original imported water-based coating to create eco-friendly coating process. Committed to environmentally friendly home. And interpreting the inner quality and artistic characteristic of products.

craftsmanship

Always keep a love for traditional craftsmanship alive,
Honouring the timeless value of timber through skilled handiwork.
The seven manual techniques: planing, carving, scraping, grinding,
cutting, rubbing, and pulling
Bring a unique warmth to every piece,
Turning it from just a household item into a true part of the home,
Delivering a sense of connection and meaning.
